DETAILED ACTION

Claim Rejections - 35 USC § 112

Specification

1. The amendment filed 11 July 2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: In the amendment applicant changes in the specification "intensities" to "power". The language was not supported in the specification as originally filed.

Applicant is required to cancel the new matter in the reply to this Office Action.

2. Claims 5-7,11-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the amendment applicant changes "intensities" to "power". The language was not supported in the specification as originally filed.

Election/Restrictions

3. Newly submitted claims 14,16,17 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The original claims did not read on the work piece being a ship, marine vessel, vehicle or a textile, the imaged pattern being marks for drill holes in fasteners or indicators for aligning segments of marine vessels, or the imaged pattern being an outline for a logo or picture on the work piece.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 14,16,17 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

Art Unit: 1752

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
